

**CITY AND COUNTY OF HONOLULU**  
Honolulu City Council

Solicitation No. RFB-CCL-202102  
City Council Committee Room  
Posted online at: [www.honolulu.gov/council/default.html](http://www.honolulu.gov/council/default.html)

**ADDENDUM NO. 1**

Honolulu, Hawaii

June 23, 2021

**TO ALL PROSPECTIVE BIDDERS:**

The City received the following questions for clarification. Responses are noted below.

1. Our remediation subcontractor asked if the CIH has to be on site or could a Project Monitor under the direction of the CIH be used??

**City Response** - The CIH shall be onsite to monitor abatement work in progress to make sure proper compliance.

2. The Request for Bids, third to the last line says the "Sealed packets must contain four (7) hard copies of the full bid and all its contents"?

**City Response** - The word governs, so only four (4) copies are required.

3. The Project Overview Background, and Objectives stated that "There will be some incidental electrical work related when removing the drop ceiling tiles, chill water pipe insulation abatement and ACM floor tile". Are there any electrical plans we could review?

**City Response** - This is a notice to be observant when working above the drop ceiling and during removal of ACM VCT tiles.
